

TECHNOLOGY CENTRE

Generated on 22-05-2012

The means and resources available to the technology centre are:

CAD design programs

- Pro-Engineer
- Solid Edge

Casting simulation (solidification, mould filling and stress)

- Wincast

CAD/CAM link

- Esprit CNC

Project management

- Four full-time project leaders for support in the various projects
- Microsoft Projects for monitoring projects

Product development. The necessary analyses and calculations for complex modules or components are completed in-house or with partners, for example:

- FEM analysis
- Mass inertia calculations
- FMEA analyses

Prototyping

- Own pattern workshop
- Vacuum mould installation

Engineers

- The engineers from the various disciplines work closely with one another.

Eurotech Aluminium Castings
